SECURITY, SOUND & VISION

About STADIA SSV

Here at Stadia SSV we are emerging as a leading provider to all sports stadiums installing the latest technology to cater for all your Security, Sound & Vision needs.

Our ground safety control installs completed in major sporting stadiums throughout the UK and Ireland have given these organisations peace of mind with a full 360 view of the inside and outside of their stadiums, with live screening from their control room.

Our latest Turnstile people counter also compliments our CCTV system with an instant recording of every entrant into your stadium logged to your system portal in the control room allowing event security to identify crowd attendances or areas of your stadium which cannot facilitate any more supporters.

Getting clear safety messages, team line-ups, substitutions or special announcements across to your paying patrons is made easy with our public announcement system delivering high quality tone throughout your stadium.

With game analysis and video learning continuously evolving in all sports, our fixed game analysis camera will give your management and players an insight to playing patterns from an angle of the field that your middle of the field cameras won't deliver, enhancing learnings for goalkeepers, defences and your players in attacking sections of the field.

We have just launched our brand-new state of the art scoreboard which allows for live video replays, video advertising which in return will increase revenue, publish team crests, digital team names and scores.

We also provide fire safety services in line with fire safety laws within stadiums. We supply & fit fire alarm systems, fire extinguishers, emergency lighting, fire safety signs & provide PAT testing.

SECURITY, SOUND & VISION

CCTV Ground Safety Control

Stadia CCTV systems will help keep your security teams on top of stadium safety measures during all Competitions allowing them complete view of all access points, walkways, seated and standing terraces. CCTV are an essential component of the safe management of sports grounds.

They allow security staff to monitor all areas for any instances of overcrowding, crowd management, crowd disorder, anti-social behaviour and threats to security or patrons.

When an issue occurs, security personnel can assess the situation live on the screens from your control room, plan their response, and get security staff there quickly to diffuse any unnecessary situations in your stadium.

If for some reason an incident wasn't dealt with at the time, stored footage can be viewed to make a more detailed appraisal.

Game Analysis Fixed Cameras

Having a fixed IP camera installed in your grounds opens up a whole new world of possibilities for your coaches and more importantly players as you aim to unlock the full potential of your teams.

Fixing these cameras centrally behind the goal posts and with required height this style of video Analysis allows your team to watch back their specific positional performances and gives everyone a foundation to grow and improve with an emphasis on kick-out strategies, defensive setups and forward movements with a birds eye view.

Coaches can also avail of these cameras for training sessions providing visual feedback to players on areas of the game in which they need to improve on or examples of how well certain movement patterns worked in that session.

All your recordings can be uploaded on to your teams analysis software platforms and merged with the recordings from your pitch side match day camera.

The benefits of filming sports sessions are endless particularly as Visual learning helps players understand concepts easily due to the fact it stimulates images and affects their cognitive capabilities. In fact, research shows that we can process visuals much faster than text or narrative

Turnstile People Counter

Our new Turnstile people counter 'Abacus' built in-house by Stadia SSV counts and analyses foot traffic with our innovative technology recording the number of people passing by the designated area with high precision counting accuracy.

With its User-friendly interface and simplicity to install, event organisers will always have peace of mind with instant access to crowd attendances and the added security of an alarm trigger as your stadium approaches full capacity ensuring crowd control measures are always adhered to.

Professional Digital Scoreboard

The Ultimate Game-Changer for Your Venue

Elevate your sports events with our Professional Digital Scoreboard, designed for high visibility, easy operation, and maximum impact. Whether you're hosting a competitive match, a community game, or a school tournament, this scoreboard delivers clear, real-time results that keep everyone in the loop.

Key Features:

- **High-Visibility LED Display:** The large, bright digits ensure excellent readability from any angle, indoors or outdoors, even in bright sunlight. Your audience won't miss a thing!
- **Customizable Game Information:** Easily track scores, game time, fouls, periods, and more, with customizable settings for various sports like basketball, football, soccer, volleyball, and more.
- **User-Friendly Controls:** Designed for ease of use, the intuitive control panel allows for quick adjustments during the game, whether you're updating scores or switching between game modes.
- **Durable and Weatherproof:** Built to withstand the rigors of outdoor sports, our scoreboard is made from weather-resistant materials, ensuring long-lasting durability in all conditions.
- **Versatile Integration:** Perfect for schools, arenas, sports complexes, gyms, and more. Our scoreboard is adaptable for a range of sports and can be synced with other digital systems for real-time updates.
- **Energy-Efficient:** The low-energy LED technology reduces operating costs while delivering a stunning display, day or night.

Why Choose Our Scoreboard?

- **Boost Engagement:** Keep your audience excited and engaged with real-time updates and an eye-catching display.
- **Saves Time:** No more manual scorekeeping! Focus on what matters while our scoreboard handles the rest.
- **Professional Quality:** Our scoreboard brings a touch of professionalism to any event, giving your venue an upgraded look.
- **Affordable Excellence:** Get the best value for your money with a high-quality scoreboard that's built to last.

Perfect for:

- Schools, colleges, and universities
- Community centers
- Sports complexes and clubs
- Professional arenas
- All sports including (Soccer, Gaelic, Cricket, Rugby etc)

Invest in your next event's success with a scoreboard that makes every moment count. Order yours today!
